

Excellent, Aadesh! Now I have a crystal-clear picture of **DivyaChetana Organics LLP**. This is a beautifully unique business — blending spirituality, organic commerce, creative services, and cultural event management. Let me now give you the **complete end-to-end website building guide** that will pass every Indian business compliance check. 🚀

DivyaChetana Organics LLP — Complete Website Blueprint

PHASE 1: LEGAL FOUNDATION (Do This BEFORE Building the Website)

Your website is a **legal document** as much as it is a marketing tool. Under Indian law, your LLP website must display specific information.

1.1 — Mandatory LLP Disclosures (Section 21, LLP Act 2008)

Every page of your website (especially the footer) **must** display: ¹

Mandatory Item	What to Display
Full Legal Name	DivyaChetana Organics LLP
LLPIN	Your LLP Identification Number
Registered Office Address	Full address as registered with MCA
Statement	"Registered as a Limited Liability Partnership under the LLP Act, 2008"

⚠️ **Penalty for non-compliance:** ₹10,000 under Section 21(2) of the LLP Act. ²

1.2 — Mandatory E-Commerce Disclosures (Consumer Protection E-Commerce Rules, 2020)

Since you're selling products (B2C e-commerce), you fall under the **Inventory E-Commerce Model**. You must display: ^{3 4}

¹<https://indiankanoon.org/doc/53569072/>

²<https://indiankanoon.org/doc/53569072/>

⁴<https://www.teamleaseregtech.com/blogs/134/e-commerce-compliance-in-india-understanding-the-consumer-protection-e-commerce-rules-2020/>

Requirement	Details
Legal Name	DivyaChetana Organics LLP
Principal Geographic Address	HQ + all branch addresses
Website Details	Your domain name
Customer Care	Email, phone (landline + mobile), fax (if any)
Grievance Officer	Name, designation, contact details, email — must be visible on the website
GSTIN	Your GST Identification Number
PAN	LLP PAN number
Country of Origin	For every product listed
Price Breakdown	MRP, selling price, taxes, shipping — all clearly shown
Return/Refund/Exchange Policy	Must be accessible before purchase
Importer Details	If any product is imported
Cancellation Charges	Cannot charge consumers for cancellation unless you bear similar charges
Consent	No pre-ticked checkboxes — consent must be explicit and affirmative

⚠ **Non-compliance attracts penalties under Sections 21 & 22 of the Consumer Protection Act, 2019, including imprisonment.** ^{5 6}

1.3 — DPDP Act 2023 Compliance (Privacy & Data Protection)

Since you collect names, emails, phone numbers, addresses, and payment info — you are a **Data Fiduciary** under the DPDP Act, 2023. ^{7 8}

Requirement	What You Must Do
Privacy Notice	Clear, plain language notice explaining what data you collect, why, and how to exercise rights
Multilingual Notice	Must be available in English + Hindi + Kannada + Bengali (any language from the 8th Schedule that your users speak)
Consent Mechanism	Free, specific, informed, unconditional, unambiguous — via clear affirmative action (checkbox the user actively clicks)
Withdrawal of Consent	Users must be able to withdraw consent as easily as they gave it
Children's Data	If any user is under 18, verifiable parental consent is required

⁸https://www.ey.com/en_in/insights/cybersecurity/decoding-the-digital-personal-data-protection-act-2023

Grievance Redressal	Process for complaints to the Data Protection Board
Breach Notification	Mandatory reporting mechanism if data breach occurs
Data Retention	Delete data when purpose is fulfilled or consent is withdrawn

⚠️ **Penalties up to ₹250 crore per breach!** Full compliance deadline: **13 May 2027**, but you should implement from Day 1. ^{9 10}

1.4 — GST Compliance on Website

Since you're GST-registered (Regular scheme): ¹¹

- ✓ Display **GSTIN** prominently on every invoice
- ✓ Generate **GST-compliant invoices** with HSN/SAC codes, tax breakup (CGST/SGST or IGST)
- ✓ Show **inclusive/exclusive tax** clearly on product pages
- ✓ E-invoicing is required if turnover exceeds ₹5 crore (keep this in mind for future scaling) ¹²

Next Steps — How We Proceed

I've given you the **complete architectural blueprint**. Now, we can go deeper into any of these:

1.  **Draft the actual legal pages** (Privacy Policy, T&C, Return Policy, etc.) — I can write production-ready content for each
2.  **Design the wireframes** — I can create detailed page layouts
3.  **WordPress + WooCommerce setup guide** — Step-by-step installation and configuration
4.  **Razorpay integration walkthrough** — Detailed technical setup
5.  **Multilingual content strategy** — How to structure HI/KN/BN translations
6.  **GST invoice template** — Compliant invoice format for WooCommerce

Which area would you like to dive into first? I'd suggest starting with **drafting the legal pages** since those must be ready before launch, and then moving to the technical setup.

What do you think? 🙌
